

**Local.
Reliable.
Speed.**

**Choose BBT
Fiber Internet.**

▶ Why Fiber?

Big Bend Telephone's FTTP (Fiber-to-the-Premise) is installed by LOCAL, friendly technicians that you know and trust.

Since FTTP provides a more RELIABLE Internet connection, you will have the ability to stream video services, attend virtual meetings for remote work, connect your smart home technology, play online games, consult with doctors via Tele-Med and MORE!

Fiber optic cables can carry data at high speeds over long distances - meaning you'll get the SPEED that you subscribe to.

**PLUS, YOU CAN GET
\$30 OFF PER MONTH!**

The Affordable Connectivity Program (ACP) provides a discount up to \$30 per month toward broadband service for eligible households. Eligible households can enroll through BBT. Scan this QR code to learn more.

**CALL 800.592.4781 OR VISIT
BIGBEND.COM TO SIGN UP TODAY!**
